

Tool execution output

```
Starting translation for project: Cookie
Output directory: /path/to/output/Cookie/deepseek
Using model: deepseek
```

```
-- Loading translation graph...
Found 8 classes, 45 methods
Building call graph... Done
```

```
-- Generating translation schemes...
Class: Cookie -> Scheme generated
Class: Header -> Scheme generated
```

```
-- Translating methods...
Layer 0: 15 methods translated
Layer 1: 20 methods translated
Layer 2: 10 methods translated
```

```
-- Running compilation agent...
File: Cookie.cpp - Compiling... Error found
Error: Missing header <string>
Fix: Adding #include <string>
File: Cookie.cpp - Compiling... Success
```

Translation completed successfully!
