

```
1 class MyClass {
2     public:
3         void doSomething() {
4             // ...
5         }
6     };
7
8     void example_type1() {
9         MyClass obj;
10        obj.doSomethingElse(); // Compilation error: 'class MyClass' has no member named
11        'doSomethingElse'
12    }
```
